Subject: RE: list of documents for DEC Contractor preforming study
Attachments: image002.jpg; Case Against OU-2 ROD Dec 2011 Update.pdf

Jim,

Please add the attached MWD case against the OU-2 ROD to the information package. Also it is important that HDR understands that the cost alternatives developed in the OU-2 ROD did not consider the cost of treatment for 1,4 Dioxane or Perchlorate. This cost must be added to the wellhead treatment projections that the DEC obviously miscalculated as far as the amount of public supply well impacts. These constituents are expected to be regulated after the UCMR process.

Stan Carey, Superintendent
Massapequa Water District

Subject: list of documents for DEC Contractor preforming study

As you all know, the Governor signed the bill that became Chapter 543 of the Laws of 2014 which requires DEC to write a report evaluating the alternatives to intercept and remediate the contaminated groundwater plume associated with the former Grumman facility in Bethpage. DEC has decided to use one of our standby engineering contractors to assist us in this evaluation. We have selected Henningson, Durham & Richardson Architecture and Engineering, P.C. (HDR Inc.) and issued them a work assignment to perform this task. They will be present for the next quarterly meeting with EPA, DEC, Navy, Grumman and the Water Districts.

As you also all know, there is a huge amount of information that has been collected over the years relative to the Grumman Bethpage site. We do not want to waste money by asking HDR to look at all of them and then decide which are useful. DEC staff have developed a list of documents that we think are pertinent to the task. All of you have significant experience with this plume and are familiar with many of the documents that have been developed. The purpose of this email is to ask that you look at the list and let us know if there are other documents that we may have missed that would be pertinent. We will meet with HDR in the next several weeks and want to provide the list at that time or shortly thereafter. Thank you. Please contact me if there are questions. Thanks Jim H
